1 year

Assistant Manager (Managed Security Services Provider)

August 2022 - October 2022 (3 months)

Islāmābād, Pakistan

Assistant Manager (Network Operations Management)

April 2022 - September 2022 (6 months)

PTCL HQ Islamabad

Highlights of Tasks in the Network Operations Management Department:

1. Huawei Autin solution implementation with PTCL FMCs and integration with NOC and GIS.
2. Held bi-annual and quarterly network performance meetings with PTCL regional and zonal teams after deep-dive analysis of networks, latencies, RCAs, and performance comparisons with vendor reports and analysis.
3. Remediation of audit observations and timelining resolution of long-standing network issues.
4. Consolidating PTCL FMCs data, provisioning resources, onboarding PTCL team leads, fiber deployers, and fiber patrollers on the latest Work Force Management solution, demonstration, and ensuring maximal usage of application solutions.
5. Inventory and Installed base verification, BBR and R&R management, auditing, and escalations.
6. Potential savings in the O&M department, rental evaluations, consolidation of wireless site data for site dismantling and management, and monthly and yearly reporting.
7. Work Force Management reporting, and communication with the field teams, AMs, Managers, and WFM solution providers - including Jazz and Huawei.
